

The positive states

RIGHT EYE

The positive states of consciousness for the right eye are shown in this template. Each of these 96 positive states are related to a space in our body and our consciousness. In these spaces there is an experience in the unison, a thought in the mind, a feeling in the heart, and an e-motion in the hara. For instance the experience of *truth* in the Unison **+** of the Tongue **E** is a thought of *perfect*, a feeling of being *congenial* and an e-motion of *undisturbed*. These details for each space are supplied with an eye reading by Sharan.
