B. HEART Bloodred Happiness/Being

The Heart gives us a sense of space and time which is LOVE in Existence. The blood flowing through the heart makes us feel space as it flows to the toes and the fingers. The beat of this pump gives us time. The pulse rate in the Heart is twice that of the Hara. It is also a centre and produces electromagnetic electricity. The Heart longs to beat with other hearts and is connected to the left female eye. When you look through the left female eye you identify with what you see and connect with your feelings. In the circuit of the heart is hatred of the self; neurosis.

The points on the body are on the right side opposite to the Hara's, the right jaw, inside right hip and the outside right ankle. Positive/negative states in the male side are: Happiness/Neurosis, Compassion/Involutional Melancholy, Fullfillment/Frustration and Positive Interaction/Emotionally Unstable.

The Magician represents the Heart in the Ryder deck and it is Existence in the Osho Zen Tarot. The cards in the female eye are the 10's. The heart checks with the Legs (Action, Past) and the Brain (Identity). The Chi Chi connects with Arms (Balance, Future) and the Testes/Ovaries (Vitality). The Panda and Koala are a creatures that vibrate the heart.

Shockpoints in the second half of Cancer are: B- 2nd vertebra L4, Right forward skull. F- Behind R. ear.

L-Middle of pubic bone, B- Right outside wrist.

The Heart is home and feelings and most of us break it several times during our lifetime. The worst you can do is not to listen to it. Most of humanity no longer knows how to do this. We try to do it by thinking or feeling. But since thoughts and feelings are in the past this does not work. It is really simple, you stop and become aware of the drumbeat in your chest. It is the rate it pulses "here now". If it is fast it is telling you something and you can use your other faculties to figure out what it is. Once you see what is causing it to beat fast, the heart will go back to a normal rate. If you then act against the heart it will start to beat faster again!
