PENIS/VAGINA Skyblue/Drive

This is the circuit of the third eye which we close during puberty when we polarise into opposite sexes. The organ is positively charged in the male and negative in the female. The female organ has the most powerful healing force in existence. Through realising both the masculine and feminine in sex, we transform our drive from the mind to the heart.

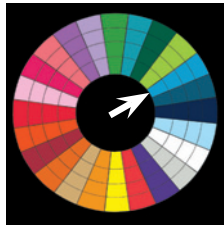

The circuit wants everything extraordinary. The positive states of consciousness for the right eye are Drive, Inventiveness, Sovereignty and Outstanding. The Tarot card is the Sun/Innocence and in the left eye the sixes represent the moods. In the negative it is the hatred of rules and the conditions that we are subject to in the centres for the right eye are Hebephrenia; (a feeling that sex is silly), Oneirophrenia; (dreaming of doing something no one else has ever done), Satyriasis; (being Pan with nude nymphs) and Nymphomania; (never getting enough).

The circuit connects us with the passionate penetration of Scorpio and the form in nature is the Wolf who mates for life. The points on the body are the third eye, under left clavicle and the left crotch. The circuit in the left eye checks with one other organ, the duodenum which gives us tranquility.

Chi Chi shockpoints are felt in the body at: I- left back of skull and vertebra T2, MN- nose bridge, T- left top of clavicle, I- left armpit

For the first part of Scorpio during the Penis Vagina Chi Chi use Ramana Maharshi's 'Who am I'. Contacting the third eye will put you in touch with the Drive. You look crossed up and let the eyelids quiver.
