Mn SPLEEN Orange/Imagination

The Spleen makes white corpuscles. It is about the size of the liver. It is situated below the left rib cage and fires up enthusiasm. In it is imagination, excitement, support and advertisement and in the negative it is mania (you get too energetic and cannot stop of your own accord).

We learn at an early age that excess energy can be used for masturbation and this is the circuit for it. In the left eye the Spleen checks with the Kidneys (source of Chi) and the Penis/Vagina.

The circuit is anti-nice, it hates politicians who only kiss babies at election time. The country is Australia and a creature is the Kangaroo. In the major arcana it is the Star/Silence.

The cards are the sevens and the most common illusion in the Spleen is that of the 7 of cups: the idea that you can have it all at once. Be rich, famous, great sex life, and enlightened at the same time.

The points on the body in the male circuit are mid skull, nose-bridge, sternum and right tibia and in the left eye the middle upper forehead and left armpit instead of the nose-bridge and right tibia.

The points in the Chi Chi circuit are: Mn-just back of centre of skull and vertebra L1, R- Left cheek, X- Left rear shoulder, MN-right inside forearm.

In the Chi Chi of the organ that produces white energy cells in your blood, celebrate that you are Here Now. Two thousand years after Jesus discovered that Love is God. We celebrate this event at Christmas, just after the Earth has seen the Sun lined up with the Galactic Center
