

Q AQUARIUS

ALTRUISM

Q LUNGS Swanwhite/Joy

The lungs provide us with air and they work with pressure. Through them the heart can oxygenate the blood to give you joy; space. The negative is pressure and the circuit is about self-indulgence. In it you hate the other and feeling inferior and superior is also in the lungs.

The positive states are Joy, Insight, Direction-way, and Transition. The negative states are Pressure (being squeezed), Trance States (just before falling asleep and waking up), Inferiority (pressure on the chest cavity, like wearing a bra), and Correction (repressing things we should not do, keeps us doing them).

The Tarot card is Temperance and the Osho Zen card is Integration. In the Left Eye the cards are the tens.

The left eye circuit checks with the Spleen and the liver. The points on the body in the male are below eyes, below breasts, below knees. In the female the bridge of the nose and the right shoulder are in the circuit.

A creature is the swan. A country is the United States and music as made by John Denver. Diseases are TB and pneumonia.

The Chi Chi of the second half of Aquarius vibrates the following points in the body: Q- Mid back of centre of skull and vertebra T6, Middle top forehead, B- Right front shoulder, Q- Inside forearms.

During the Lungs Chi Chi, stop wearing bras and put the emphasis on the outward breath.
