S LIVER Darkgreen/Security

The liver gives us security because it holds up the spine. It provides red corpuscles for the blood and cleans out beer and wine alcohol. If damaged it can regenerate it. It relates to mother who showed us how to conform so that we are secure.

In the positive states of consciousness it gives us security, stability, permanence and passivity. The negative states are depression (absence of objects that give us pleasure), Anaclitic Depression (resisting emotional attachment to women), Perplexity (creases in the forehead from suffering), and Guilt (lacking real things we stuff ourselves with substitutes).

The Tarot card is the Hanged Man and the Osho Zen card is New Vision. In the Left Eye the cards are the fours and the circuit checks with the Pancreas and the Adrenals.

The points on the body in the male are right cheek, right top shoulderblade, right buttock. In the female the, right jaw point and the left shoulderjoint are in the circuit.

Creatures are the rhinoceros and the turtle. The tree is the form of the liver. A country is Italy and music is Sade.

The Chi Chi of the second half of Pisces vibrates the following points.: S- Right top back of skull and vertebra C7, W- Right look, D- Left lowest rib, S- Top left shoulder blade.

During the Chi Chi of the Liver put your spine against a tree touching it with the back of the skull , it will instantly improve depression.
